

New features in Blackboard

We will be rolling out a dot-version update of Blackboard.

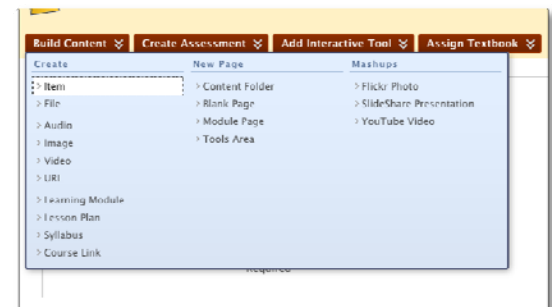

WHY you ask??

There are a few new nice features....

- Assign your text book
 - An image
 - Title
 - Author
 - ISBN

- Insert YouTube video right into Blackboard without knowing html or going to YouTube
 - Playback is in the browser window
- Insert images from flickr
- The interactive tools can be built into

Other:

- Submitting assignments is one less step
- All the users are listed by default
- There is a central repository for all files for the course
- Bulk delete to delete all items in an area.

There may be other changes that we are not aware of with the dot-version update, they should be minor.

If something changed for you and the way you use Blackboard please let us know.
