### Grilling Tip

Avoid cleaning your grill with a metal, wire brush. Bristles may come loose, find their way into your meal and become lodged in your throat. Look for grill cleaning alternatives wherever supplies are sold.

## Beat the Dangers of Heat

First and foremost, protect those most vulnerable, children, elderly and pets, from the dangers of heat by **never leaving them in a vehicle unattended**. In just mere minutes, temperatures inside can rise to dangerous levels.

Remember to **drink water regularly** in higher temperatures (carbonated and caffeinated beverages should be avoided). Avoid dehydration by drinking before you feel thirsty.

Plan strenuous activities and exercise for early mornings or late evenings when temperatures may be cooler.

Watch for signs of heat exhaustion and stroke.

**Heat Exhaustion**—rest in a cool area, drink an electrolyte beverage (such as Gatorade) if experiencing these signs:

- Very sweaty, weak, tired, nauseous
- Elevated body temperature, clammy skin, vomiting

**Heat Stroke**— **Call 911**, rest in a cool area, soak in cool water, fan the person vigorously.

- Confusion or delirium, fainting, seizures
- Elevated body temperature, dry and hot skin, often red or blue-tinged

Stay hydrated and stay cool to enjoy your summer and have fun in the sun!

## Bicycle Rodeo at Doyle Ryder

Sixty third grade students at Doyle Ryder Elementary learned new bicycle safety skills on June fifth. Each student received a custom fit helmet to take home with them and instructions on bicycle safety. Each student had a chance to put the knowledge to practice on a bicycle course that included stop signs, yield situations, curves and a railroad crossing. After honing their skills, everyone enjoyed an ice cream treat and 6 kids won a bicycle of their own!
