

To: Prospective Occupational Therapy Assistant Student

From: Occupational Therapy Assistant Program Coordinator

Thank you for your interest in the Occupational Therapy Assistant Program at Mott Community College. Enclosed you will find material to help you decide if becoming an Occupational Therapy Assistant is the right choice for you. Additional information on the profession of occupational therapy is available online at [www.aota.org](http://www.aota.org), or at the Career and Employment Services located on the second floor of the College Center (Prah) Building and in the library. Specific OTA Program information can be found online at [www.mcc.edu](http://www.mcc.edu).

Mott Community College's Occupational Therapy Assistant Program courses are held at the Southern Lakes Branch Center in Fenton. General education and program related courses may be taken at any of Mott's campuses.

Twenty-four students are admitted to the program in the Fall of each year. The program requires 24 – 26 months for completion following admittance to the course OTA. 100 (Introduction to Occupational Therapy Assistant). You must complete the eligibility requirements as listed in the program guide to be eligible for admission. There are no exceptions to this rule. The program guide can be found on Mott's website. Once you have completed the requirements, submit the Supplemental Application and signed Observation Form to the program and you will receive a letter informing you of your position on the acceptance list.

To ensure progress toward eligibility, it is recommended that you see an advisor regarding appropriate courses and/or scheduling. The Health Science advisors are located in the Advisement Center on the second floor of the College Center Building (schedule an appointment by calling 810 762-0331). Advisors are also available to answer questions at the Southern Lakes Branch Center (schedule an appointment by calling 810 762-5000).

If you have questions regarding the program or requirements, you may contact the **Program Coordinator Kimberly Jeffries at 810 762-5018 or [kimberly.jeffries@mcc.edu](mailto:kimberly.jeffries@mcc.edu)**.

## **Pre-Admission Information Sheet**

The following information has been gathered to help the prospective occupational therapy assistant student make an informed decision concerning participation in the Occupational Therapy Assistant Program at Mott Community College.

### **ACCREDITATION STATUS**

The Occupational Therapy Assistant Program is accredited by the Accreditation Council for Occupational Therapy Education (ACOTE) of the American Occupational Therapy Association (AOTA), located at 4720 Montgomery Lane, Suite 200, Bethesda, MD 20814-3449. AOTA's phone number is (301) 652-6611. Graduates of the program will be able to sit for the national certification examination for the occupational therapy assistant administered by the National Board for Certification in Occupational Therapy (NBCOT). After successful completion of this exam, the individual will be a Certified Occupational Therapy Assistant (COTA). Michigan requires a license in order to practice in this state (the program coordinator will give you information on obtaining a license). A felony conviction may affect a graduate's ability to sit for the NBCOT certification examination and attain state registration.

NOTE: All OTA students must complete Level II Fieldwork within 18 months following completion of academic preparation.

### **PHYSICAL EXAMINATION**

Documentation of a recent physical examination (no older than six months) must be submitted to the OTA Program Coordinator by date specified by the program coordinator (usually they are due during the first fall in the program). The physical exam form is available in the Division of Health Sciences office Curtis-Mott building on the main campus or from the OTA Program Coordinator at the Southern Lakes Branch Center. Forms will also be available at the program orientation. The form must be filled out **completely** by the student and his/her physician.

### **CRIMINAL BACKGROUND CHECK (CBI)**

**A criminal background investigation is required to apply for health sciences programs. Informational packets may be obtained from the Division office (CM 2313) or from an advisor.**

The packet provides instruction regarding the process to complete and submit the background investigation. ***Students will not be admitted to any health science program without a clear CBI.***

### **TIME COMMITMENT**

The OTA program requires a large time commitment for classroom hours, study, practical examinations, and clinical participation. Expect to study two hours for each lecture hour. Classes may be scheduled as early as 8:00 am and end as late as 9:00 pm. Each semester/session class schedule will vary. Students are typically in class or clinicals 15 – 20 hours per week. During the OTA Internship students are in the clinic 40 hours per week for 16 weeks.

Some students are able to work part-time but others find it difficult to keep up with the material and either cut back on work hours or quit working.

### **TUITION**

Tuition is based on contact hours. Please see the current MCC course tabloid or web site ([www.mcc.edu](http://www.mcc.edu)) for the current tuition schedule. Tuition may be raised by the Board of Trustees of the College as necessary.
